## CAREER OBJECTIVE

Having spent an 8-year career in warehousing and logistics, I have developed strong organizational and analytical skills that thrive in fast-paced environments. Now, as a web developer, I am eager to apply these skills to a technology-driven role. Seeking web development, I am excited to contribute both my technical expertise and my experience in handling complex tasks efficiently, providing solutions to the digital world.

## WORK EXPERIENCE

### Forklift Operator

#### Conestoga Cold Storage

📅 January 2022 - January 2023

📍 Mississauga, ON, Canada

- Order Picking and Fulfillment: Utilized reach trucks to pick and assemble orders according to client requirements.
- Loading and Unloading Duties: Operated forklifts and ride-on pallet jacks to efficiently load and unload pallets daily, contributing to streamlined warehouse operations.
- Team Collaboration: Collaborated with warehouse team members to fulfill complex orders, demonstrating strong communication and problem-solving skills.

## PROJECTS

### Scheduler

#### Github

📅 July 2023

- Application developed in React to allow students to schedule meetings with mentors.
- Built using React, Axios, Cypress, Storybook

### TinyApp

#### Github

📅 March 2023

- Application to shorten URLs to a more readable format.
- Built using Node and Express
